Profile

I'm a software engineer with 5+ years of working experience.

I've worked on multiple different web apps written on .NET(MVC) and for the last 3 years I've been focused on Ruby and Rails. I have worked on projects such as Crypto wallets, enterprise billing software, all-in-one healthcare application and others.

My strength is in easily finding optimal and efficient ways of overcoming challenges while building clean structure and logic. I'm open to new challenges.
